

# HPLC Sample Preparation Survey Report

Sponsored by The Analytical Scientist (Texere Publishing)  
 Conducted exclusively for GE Healthcare Life Sciences  
 Submitted on 26 March 2018

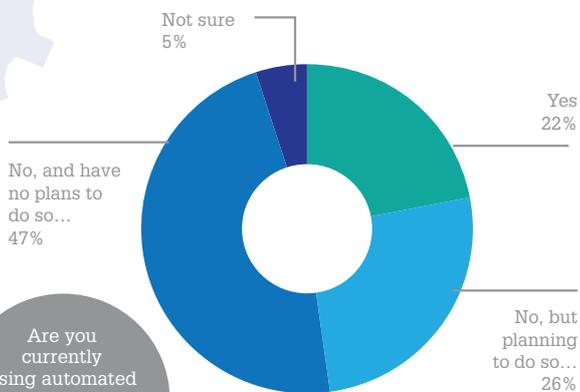

What is your role with regard to making improvements in your laboratory?

Which areas are most in need of improvement in your laboratory?

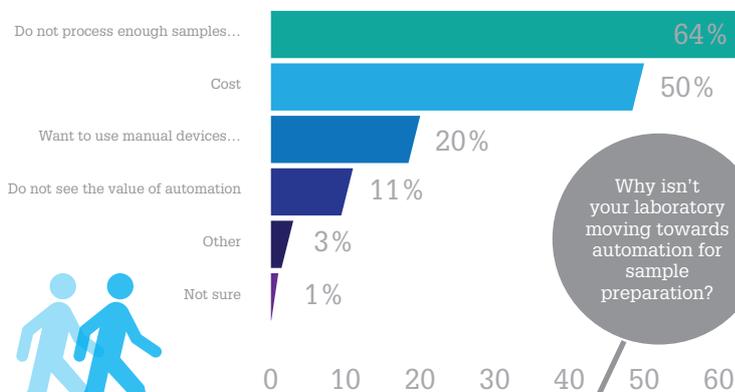

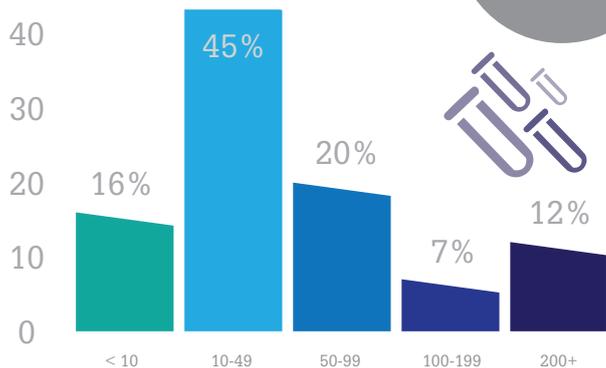

What barriers do you encounter when switching products or adopting new technologies?

Are you currently using automated techniques in your HPLC sample preparation process?

On average, how many samples does your laboratory process per day using automation?

Why isn't your laboratory moving towards automation for sample preparation?

How long has your laboratory been using automation for HPLC sample preparation?
